

# BEYOND BELIEF NETWORK

## Beyond Belief Network Guides: Join the Local Climate Movement through 350.org

[350.org](#) is the Foundation Beyond Belief's 2014 [Q1 Natural World](#) beneficiary for the [Humanist Giving donation program](#). As with all FBB beneficiaries, it was chosen for financial responsibility, program effectiveness, and compatibility with the FBB mission. 350.org has plenty of ways for local groups to fight climate change besides donating money. You can use this guide for environmentally friendly service event ideas and to decide if you'd like to join the 350 Local Movement.

### 350 Local Project Ideas

1. Educate your community. You can [screen a climate change movie](#) from their list of recommended documentary films or choose a fictional Hollywood movie, like *Day After Tomorrow*. If a movie wouldn't work for you, you could have an invited speaker [present](#). You can find potential speakers from local universities, 350.org partner [Climate Reality Project](#), or have a member use one of the [presentations](#) provided by 350.org. You could also try talking about these issues on a local [radio](#) program.
2. Share energy efficiency tips. Small changes can mean big savings of money and energy, making [energy efficiency projects](#) that should appeal to everyone.
3. Get involved in local politics. 350 Local advocates implementing [Clean Local Energy Accessible Now \(CLEAN\) programs](#), [campaigning for office](#),\* and lobbying for [bike lanes](#).
4. Start a 350 Local group. Your group must participate with 350 Local via a day of action or local project before applying to join. You must also read and agree with the [organizing manifesto](#). If you meet all of the [requirements](#), you can [apply here](#).

\*if your group has federal 501(c)(3) status as a non-profit, you are legally prohibited from endorsing or otherwise supporting candidates.

### 350.org Resources

1. [Fact sheets](#) about the climate and climate impacts
2. [Using art](#) for climate change
3. Full list of [project ideas](#)
4. [Searchable list](#) of 350 Local groups
5. 350.org's [current campaigns](#)

### Other resources

1. National Geographic's [environmental](#) section has sections on [global warming](#) and [freshwater](#) where you can find information and conservation tips.
2. U.S. Dept. of Energy has an [Office of Energy Efficiency and Renewable Energy](#). Find energy and cost [calculators](#) for energy efficient products among other publications and services.
