# FOUNDATION BEYOND BELIEF

*humanity at work*

Foundation Beyond Belief is a non-profit created to focus, encourage and demonstrate the generosity and compassion of atheists and humanists, and to provide a comprehensive education and support program for nontheistic parents.

Members sign up for a monthly automatic donation in the amount of their choice and indicate how they would like it distributed among ten featured beneficiaries.

**Each quarter, 100 percent of donations goes to the beneficiaries and a new slate is selected.**

Social network and forums allow members to advocate for causes and help choose beneficiaries.

## OUR MISSION:

- To demonstrate humanism at its best by supporting efforts to improve this world and this life;
- To challenge humanists to embody the highest principles of humanism, including mutual care and responsibility;
- To help humanist parents raise confident children with open minds and compassionate hearts.
