What is Foundation Beyond Belief?

humanity at work
**FOUNDATION
BEYOND BELIEF**

Foundation Beyond Belief is a charitable foundation created to focus, encourage, and demonstrate humanist generosity and compassion.

Our Humanist Giving program features five charitable organizations per quarter, one in each of the following cause areas:

- Education
 - Poverty and Health
 - Human Rights
 - The Natural World
 - Challenge the Gap
- (charities based in other worldviews)

Members join the Foundation by signing up for a monthly automatic donation in the amount of their choice, then set up personal profiles to indicate how they would like their contribution distributed among the five categories.

All featured organizations are carefully selected for impact and efficiency. At the end of each quarter, all donations designated for our featured charities are forwarded, no percentage is retained, and a new slate of beneficiaries is selected.

Visit FoundationBeyondBelief.org and click "Contribute" to join today.

**BEYOND
BELIEF
NETWORK**

Beyond Belief Network is a network of more than 80 local freethought organizations putting compassionate humanism into action through community volunteering and charitable fundraising. To date, BBN teams in more than 60 cities and 30 states have donated more than 30,000 hours of community service.

BBN is designed to encourage and assist local and online groups of secular humanists, atheists, and other nonbelievers to serve their communities. BBN staff assist teams with ideas and tips for planning events and finding existing opportunities for service in their area. BBN teams can submit reports about their events to earn perks like t-shirts, grants for service activities, and national recognition. BBN teams are eligible for the Heart of Humanism awards, presented each year at Foundation Beyond Belief's annual conference.

Organizations with a compatible humanist mission and a public humanist or atheist identity are encouraged to consider joining the network by filling out the team application on our website.

Humanist Disaster Recovery (HDR) is a program of Foundation Beyond Belief that consists of three areas: **Network**, **Teams**, and **Drives**. It's mission is to coordinate a humanist disaster recovery program and to provide non-theists an avenue to assist impacted communities when disaster strikes.

HDR Network includes a national database of volunteers who are ready and willing to help out.

HDR Teams will assist communities and those in need on the ground during a major disaster.

HDR Drives (previously labeled Humanist Crisis Response) is a focal point for humanist financial aid during disaster recovery efforts.

- After Super Typhoon Haiyan ravaged the Philippines in November 2013, we raised more than \$60,000 in support of Citizens' Disaster Response Center and Team Rubicon for rebuilding and emergency medical care
- In response to the massive Syrian refugee crisis, we raised nearly \$10,000 for International Rescue Committee's work in refugee camps
- In the wake of the devastating F-5 tornado that struck Moore, Oklahoma, in May 2013, we raised more than \$45,000 for Operation USA and the Regional Food Bank of Oklahoma to support recovery efforts

In 2013, the four members of Pathfinders Project embarked on a yearlong international service trip in search of the best location to launch the **Humanist Service Corps**. They worked with partners in 11 project locations, contributing 6,000 hours of service with community-centered organizations on education, human rights, poverty abatement, and water sustainability projects. Equipped with the lessons learned by the Pathfinders, Foundation Beyond Belief is now poised to select one of the Pathfinders Project locations and expand the partnership into a multiple-year commitment.

Beginning in the summer of 2015, Humanist Service Corps members will put their values into action abroad and learn from local citizens about the problems they face, working with those citizens to develop and implement sustainable solutions.

The Humanist Service Corps will work to:

- Prevent human rights abuses
- Promote third-world development
- Protect the environment

This initiative will also facilitate intercultural exchange, train humanist leaders, increase nonreligious engagement in service, advance a humanist philosophy of service, and improve global perception of the nonreligious.

Join today! For as little as \$5 a month, you can join the secular humanist movement as we demonstrate that we are good without gods. **Visit FoundationBeyondBelief.org and click "Contribute" to choose your monthly giving level.**

Once you've selected your level, visit your Member Panel to distribute your funds among our five cause areas. Maybe you want 100% of your contribution to go toward Education, for example, or 50% to Human Rights and 50% to Poverty and Health—whatever reflects your own vision of compassionate humanism at work.

Each quarter our slate of charities changes, but you can change your distribution at any time. 100% of every dollar designated for a particular cause goes to that cause.
