

**Foundation Beyond Belief** is a charitable foundation created to focus, encourage, and demonstrate humanist generosity and compassion.

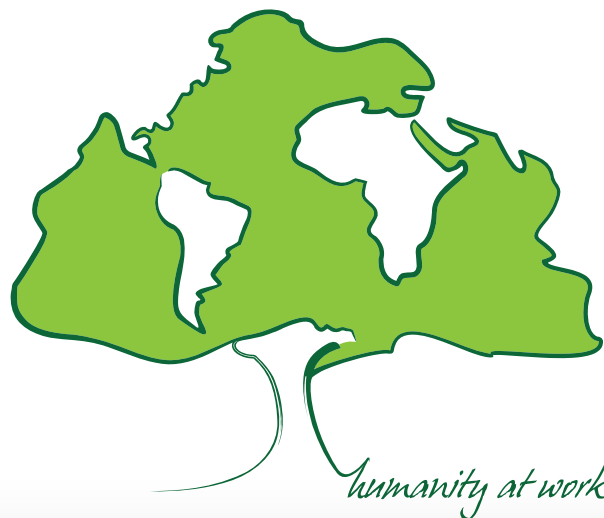

Our **Humanist Giving** program features five charitable organizations per quarter, one in each of the following cause areas:

- Education
- Poverty and Health
- Human Rights
- The Natural World
- Challenge the Gap (*charities based in other worldviews*)

**Beyond Belief Network** is made up of more than 80 local freethought organizations putting compassionate humanism into action through community volunteering and charitable fundraising.

The **Humanist Disaster Recovery** program springs into action in response to major humanitarian crises, bringing resources to those in desperate need.

The **Humanist Service Corps**, launching in 2015, will enable humanist volunteers to visit communities in need around the world, learn from local citizens about how to address their specific problems, and work together to create sustainable solutions.

Join over 2,500 compassionate humanists  
working for a better world.
